

To Whom It May Concern:

K-LOVE radio serves my local community with relevant Christian-based information, such as local event announcements, public service announcements for local organizations, music not heard on any other radio station, and radio spots that help me live a happier, more fulfilled life.

If K-LOVE were not broadcasting these kinds of positive and encouraging messages in my community, there is the chance that another LPFM broadcaster may provide a less wholesome, unfamily-friendly type of broadcast.

I believe the service provided by K-LOVE radio serves the public interest in my community mainly by offering a positive, encouraging alternative to typical commercial radio. Like a church serves as a safe place in a local geographic region, KLOVE radio provides a safe place on the radio airwaves.

I know my life has been enriched by the music and message of KLOVE radio. As I drive around and live my life in neighborhood, I feel the positive messages for Christian living inspire me to act kindly and justly towards those I meet. I imagine many others have a similar response...spreading good faith and good will in our local community. Now, that is a service everyone can benefit from receiving.

Please do not allow LPFM to take priority over current FM translator service. Keep KLOVE on the airwaves across the nation.
